NGSA President Skip Horvath Applauds Commissioner Kelly's Confirmation

(Washington)... "The Natural Gas Supply Association (NGSA) applauds the long-awaited re-confirmation of Federal Energy Regulatory Commission (FERC) member Suedeen Kelly to a five-year term. After being deadlocked for so many months, this weekend's last-minute confirmation in the Senate was welcome news.

"As we advised Senators during the process, Commissioner Kelly has a solid understanding of both the fundamentals and complexities of natural gas markets, which makes her an invaluable asset to FERC. We have been impressed with her grasp of the issues and she has demonstrated a willingness to be engaged in developing constructive solutions to the nation's energy challenges.

"There are few more capable people than Commissioner Kelly to lend a steady, firm hand at FERC, and to help shape a balanced regulatory agenda for the benefit of all market participants and, ultimately, all natural gas customers.

"We look forward to working collaboratively with her during the rest of her tenure at FERC."

NGSA represents integrated and independent companies that produce and market natural gas in the United States. NGSA is actively involved in pursuing regulatory and legislative issues that affect the association's members. Established in 1965, NGSA encourages expanded use of natural gas and supports regulatory and legislative actions that foster competitive markets.
