NGSA Applauds New Senate Natural Gas Caucus

(Washington, DC)... Natural Gas Supply Association (NGSA) president and CEO R. Skip Horvath released the following statement today applauding the formation of a Senate Natural Gas Caucus by Senators Mary Landrieu, D-La. and Saxby Chambliss, R-Ga.

“We’re pleased to see this important bipartisan effort recognizing the unique role natural gas plays in the country’s long-term energy future. Natural gas is the cleanest fossil fuel, it’s produced in 33 states, provides nearly half of all energy consumed by households and businesses and accounts for 4 million American jobs. By conservative estimates, we have at least another century’s worth of supply. Natural gas is the key to our country’s energy future.

“We applaud Sen. Landrieu and Sen. Chambliss for their vision and advocacy.”

####

NGSA represents integrated and independent companies that supply natural gas. Established in 1965, NGSA encourages the use of natural gas within a balanced national energy policy, and promotes the benefits of competitive markets to ensure reliable and efficient transportation and delivery of natural gas and to increase the supply of natural gas to U.S. customers.
