NGSA Board Supports President of NGSA

In light of allegations made by two former employees of the Natural Gas Supply Association of improprieties by NGSA President, R. Skip Horvath, the NGSA Board would like to state its full confidence in Mr. Horvath's integrity and leadership.

The NGSA Board takes these matters seriously. When the financial allegations were raised almost a year ago, the Board conducted a thorough review of Mr. Horvath's expense reimbursements and dependent care expenses and found no evidence of impropriety by Mr. Horvath. The review found everything to be in order and in full compliance with NGSA's policies and practices; in short, it found that the allegations were completely without substance. Review of other allegations also have been found to be unsupported.

While we have yet to be served the lawsuit, we are confident that Mr. Horvath will be fully exonerated. Moreover, NGSA will vigorously defend the litigation.

NGSA represents integrated and independent companies that produce and market the majority of the natural gas produced in the United States. NGSA is actively involved in pursuing regulatory and legislative issues that affect the association's members. Established in 1965, NGSA encourages expanded use of natural gas and supports regulatory and legislative actions that foster competitive markets.
