NGSA President Skip Horvath Reacts to FERC Confirmations

(Washington) ... "With the confirmations of Joe Kelliher and Suedeen Kelly to the Federal Energy Regulatory Commission (FERC), the Senate has taken responsible action to ensure that a quorum is maintained and that the critical work of the commission will continue."

"It is a crucial time for the nation in terms of energy policy, and we will need all hands on deck to ensure efficient regulation where necessary and, where possible, balanced, market-based solutions to the supply and demand challenges ahead."

"Both Joe and Suedeen have the necessary experience to be valuable contributors to the natural gas marketplace, and the NGSA membership looks forward to working with them both. We welcome the fresh ideas and creative dialogue they'll bring to the commission."

"We are also encouraged by reports that the remaining vacancy could possibly be filled through a White House re-nomination of Commissioner Bill Massey, potentially rounding out an exceptional FERC team."

NGSA represents integrated and independent companies that produce and market natural gas in the United States. NGSA is actively involved in pursuing regulatory and legislative issues that affect the association's members. Established in 1965, NGSA encourages expanded use of natural gas and supports regulatory and legislative actions that foster competitive markets.
