NGSA Encouraged by Senate Confirmation of New FERC Commissioners

(Washington) ... "The Natural Gas Supply Association (NGSA) congratulates Philip Moeller, Jon Wellinghoff and Marc Spitzer on their Senate confirmation to the Federal Energy Regulatory Commission (FERC)," according to a statement today by NGSA Chairman Chris Conway, president, gas and power, ConocoPhillips.

"We look forward to working with all three of these experienced individuals and the rest of the commission, which will now be back to a full bench. We are especially encouraged by their recent congressional testimony that they recognize the nation needs a more balanced energy policy.

"We note with encouragement that these individuals achieved such broad bipartisan support. Since FERC has been operating with a bare quorum, this will not only take some of the pressure off of the sitting commission, but also allow it to continue its collaborative and constructive approach to sound energy rules benefiting all U.S. consumers."

NGSA-04-06

*NGSA represents integrated and independent companies that produce and market natural gas in the United States.
NGSA is actively involved in pursuing regulatory and legislative issues that affect the association's members.
Established in 1965, NGSA encourages expanded use of natural gas and supports regulatory and legislative actions
that foster competitive markets.*
