NGSA and CLNG Statements on Announcement of FERC Nominees

Washington D.C.: Dena E. Wiggins, President and CEO of the Natural Gas Supply Association (NGSA), and Charlie Riedl, Executive Director of the Center for Liquefied Natural Gas (CLNG), welcomed the White House's announcement of the nomination of Neil Chatterjee and Rob Powelson to the Federal Energy Regulatory Commission today.

Dena E. Wiggins, President and CEO of NGSA, said:

"The nominees by the White House to the Federal Energy Regulatory Commission today are exceptionally well-qualified to serve on the Commission. Together they bring a wealth of experience in different regulatory aspects of the energy industry.

"We hope the Senate will move expeditiously to confirm these nominees and bring FERC back to the necessary quorum to act on natural gas infrastructure projects."

Charlie Riedl, Executive Director of CLNG, said:

"These nominations are welcome news. Having a quorum at FERC will allow liquefied natural gas developers to move forward with confidence that the required permits and permissions to build projects will be considered quickly and efficiently."

###

The Natural Gas Supply Association (NGSA) represents integrated and independent companies that supply natural gas. For more information, please visit www.ngsa.org and www.naturalgas.org.

Markets Matter: *Representing America's Major Producers and Suppliers of Natural Gas Since 1965*

The Center for Liquefied Natural Gas (CLNG) is a trade association of LNG producers, shippers, terminal operators and developers, and energy trade associations. CLNG is a clearinghouse of educational and technical information. It also facilitates rational issue discussion and the development of public policies that support LNG's contribution toward economic growth in the United States.
