NGSA Announces 2015-16 Chairman and Executive Officers

(Washington, D.C.) -- The Natural Gas Supply Association (NGSA) today announced its chairman and executive officers for 2015-16. Bill Green, who is vice president, Downstream Marketing, for Devon Energy Corp., has assumed the association's chairmanship for a two-year term.

"I look forward to educating policymakers and our customers on the bright outlook for natural gas supply," said Green. "This is an exciting time for our industry, with both demand and production of natural gas currently at record levels. Natural gas is playing a critical role in the comeback of U.S. manufacturing and in enabling the power sector to meet its environmental goals."

In his role at Devon, Green is responsible for domestic natural gas sales and transportation activities. He has more than 30 years of experience in natural gas marketing with Devon and Mitchell Energy Corp., both pioneers and major developers of shale gas. Green, who lives in Edmond, Okla., is also a member of the National Energy Service Association and the Texas Pipeline Association.

NGSA's other 2015-16 officers are Frans Everts of Shell, who is serving as vice chairman, and Scott Moore of Anadarko, who is serving as secretary/treasurer. Dena Wiggins will continue as president and CEO of the association. Election of the 2015-16 officers took place at the NGSA Board of Directors meeting in December 2014 and became effective at its Feb. 20 board meeting.

####

NGSA represents integrated and independent companies that supply natural gas. Established in 1965, NGSA encourages the use of natural gas within a balanced national energy policy, and promotes the benefits of competitive markets, thus encouraging increased supply and the reliable, efficient delivery of natural gas to U.S. customers.
