# NGSA Statement on Executive Order Supporting Safe and Responsible Development of Unconventional Natural Gas

(Washington, D.C.) -- The White House issued an Executive Order ["Supporting Safe and Responsible Development of Unconventional Domestic Natural Gas Resources"](#) today.

In a statement, Natural Gas Supply Association (NGSA) president and CEO R. Skip Horvath said:

"NGSA welcomes today's executive order, which should create an improved regulatory environment for natural gas development. The order establishes a coordinated approach toward federal regulation while acknowledging the primacy of state regulators, setting the stage for natural gas companies to function in a more effective, streamlined environment. The companies that supply the nation's natural gas stand ready to help achieve its potential as a key part of the U.S. economy and energy policy."

####

NGSA represents integrated and independent companies that supply natural gas. Established in 1965, NGSA encourages the use of natural gas within a balanced national energy policy, and promotes the benefits of competitive markets to ensure reliable and efficient transportation and delivery of natural gas and to increase the supply of natural gas to U.S. customers.
