### **NGSA Announces 2013-2014 Chairman and Executive Officers**

(Washington, D.C.) -- The Natural Gas Supply Association (NGSA) today announced its chairman and executive officers for 2013-2014. Greg Vesey, president of Chevron Natural Gas, has assumed the association's chairmanship for a two-year term.

"I look forward to educating the public as an advocate on behalf of natural gas," said Vesey. "Natural gas is abundant and the cleanest burning fossil fuel, making it the ideal energy source to power America's economic growth now and into the future."

In his role at Chevron, Vesey is responsible for marketing natural gas to wholesale and large end-use customers throughout North America, as well as contributing to the growth of Chevron's European gas business. Chevron Natural Gas is based in Houston with offices in Calgary and London. Prior to his current position, Vesey was President of Chevron Global Power Company. He holds a bachelor's degree in business from Northwestern State University and he is a native of Amityville, New York.

NGSA's other 2013-2014 officers are Bill Green of Devon, who is serving as vice chairman, and Frans Everts of Shell, serving as secretary/treasurer. R. Skip Horvath will continue as the president and CEO of the association. Election of the 2013-2014 officers took place at the NGSA Board of Directors meeting held in December 2012 and became effective at its March 2013 Board meeting.

####

NGSA represents integrated and independent companies that supply natural gas. Established in 1965, NGSA encourages the use of natural gas within a balanced national energy policy, and promotes the benefits of competitive markets to ensure reliable and efficient transportation and delivery of natural gas and to increase the supply of natural gas to U.S. customers.
