NGSA Commends Senate for Confirmation of Cheryl LaFleur and Norman Bay to the Federal Energy Regulatory Commission

(Washington, D.C.) – Dena E. Wiggins, president and CEO of the Natural Gas Supply Association (NGSA), made the following statement today on the Senate’s vote to confirm the nomination of Norman Bay and the re-nomination of Cheryl LaFleur to the Federal Energy Regulatory Commission.

“Our industry anticipates a decade of tremendous growth in natural gas supply and, as the regulator of the interstate pipeline grid, FERC plays a critical role in ensuring that this valuable resource reaches our customers. We look forward to working with both Ms. LaFleur and Mr. Bay. A full complement of Commissioners will provide much needed regulatory certainty for a wide array of policy matters that can facilitate the continued growth of natural gas as a clean-burning, reliable and cost-effective energy source. ”

####

NGSA represents integrated and independent companies that supply natural gas. Established in 1965, NGSA encourages the use of natural gas within a balanced national energy policy, and promotes the benefits of competitive markets to ensure reliable and efficient transportation and delivery of natural gas and to increase the supply of natural gas to U.S. customers.
