### **NGSA-CLNG Statement on Intent to Nominate Richard Glick to FERC**

(Washington, D.C.) – The Natural Gas Supply Association (NGSA) and the Center for LNG today released the following statement regarding the news of the Trump Administration’s intended nomination of Richard Glick to the Federal Energy Regulatory Commission.

Dena E. Wiggins, president and CEO of NGSA said:

“We applaud the Administration for taking another step toward restoring a quorum at FERC. Richard Glick has years of experience in energy policy and we hope that the Senate will move quickly to consider his nomination, along with those of the other nominees, Rob Powelson and Neil Chatterjee. Billions of dollars of investment and thousands of job opportunities in the U.S. are sidelined by a lack of a quorum at FERC and it is essential that the nominees be given the opportunity to be approved as quickly as possible.”

Charlie Riedl, Executive Director of the Center for LNG, said:

“We are pleased that the Administration intends to nominate another experienced and talented nominee for FERC commissioner. We look forward to a restored quorum at FERC, which is an essential part of the LNG approval process, and hope to see all the nominees have their floor vote as soon as possible.”

####

The Natural Gas Supply Association (NGSA) represents integrated and independent companies that supply natural gas. For more information, please visit [www.ngsa.org](http://www.ngsa.org) and [www.naturalgas.org](http://www.naturalgas.org).

The Center for Liquefied Natural Gas (CLNG) is a trade association of LNG producers, shippers, terminal operators and developers, and energy trade associations. CLNG is a clearinghouse of educational and technical information. It also facilitates rational issue discussion and the development of public policies that support LNG’s contribution toward economic growth in the United States.
