### **NGSA and CLNG Joint Statement on Senate Confirmation of Clements and Christie**

(Washington, D.C.) – Dena Wiggins, president and CEO of the Natural Gas Supply Association (NGSA), and Charlie Riedl, Executive Director of the Center for LNG (CLNG), commended the Senate for its vote yesterday to confirm Allison Clements and Mark Christie to the Federal Energy Regulatory Commission (FERC).

Dena Wiggins said:

“We applaud the Senate for its vote yesterday to confirm Allison Clements and Mark Christie and look forward to working with them at FERC as our member companies move forward in building a lower carbon energy future. Natural gas is an important building block in reaching ambitious climate goals, and adopting well-crafted market approaches has never been more important considering the economic hardship that states, households and businesses are experiencing.”

Charlie Riedl said:

“Yesterday’s Senate vote is welcome news. A full complement of commissioners at FERC will allow greater certainty for LNG developers to move forward with confidence that the required permits and permissions to build projects will be considered expeditiously and thoroughly, so we can better plan for the future.”

####

The Natural Gas Supply Association (NGSA) represents integrated and independent companies that supply natural gas. Founded in 1965, NGSA is the only national trade association that solely focuses on producer-marketer issues related to the downstream natural gas industry. NGSA advocates for well-functioning markets that foster a growing, competitive market for natural gas. NGSA is dedicated to achieving a cleaner future through strong partnerships with renewables and supporting innovative technologies and market solutions that reduce emissions.

***Markets Matter: Representing America’s Major Producers and Suppliers of Natural Gas Since 1965***

The Center for Liquefied Natural Gas (CLNG) advocates for public policies that advance the use of liquefied natural gas (LNG) in the United States, and its export internationally. A committee of the Natural Gas Supply Association (NGSA), CLNG represents the full LNG value chain, including all six large-scale LNG export facilities in the United States, shippers, and multinational developers, providing it with unique insight into the ways in which the vast potential of this abundant and versatile fuel can be fully realized.
