NGSA and Center for LNG Joint Statement on White House Nomination of FERC Commissioners

(Washington, D.C.) – The Natural Gas Supply Association (NGSA) and the Center for LNG (CLNG) today released the following statement regarding the news of the Biden Administration’s intended nomination of Judy Chang, David Rosner, and Lindsay See to the Federal Energy Regulatory Commission (FERC).

Dena Wiggins, President and CEO of NGSA, said:

“We applaud the Administration for the announcement today and look forward to working with all three, once nominated and confirmed. Natural gas will continue to play a key role in our nation’s ambitious climate goals, and FERC plays a critical role in ensuring the appropriate infrastructure development which is key to achieving those goals.”

Charlie Riedl, Executive Director of the Center for LNG, said:

“The Biden administration’s announcement of three FERC commissioners is welcome news. The Center for LNG has always advocated for full complement of commissioners at FERC. These nominees will play an essential role in continuing to advance the growth of U.S. LNG and we look forward to working with each of them once confirmed.”

####

The Natural Gas Supply Association (NGSA) represents integrated and independent companies that supply natural gas. Founded in 1965, NGSA is the only national trade association that solely focuses on producer-marketer issues related to the downstream natural gas industry. NGSA advocates for well-functioning markets that foster a growing, competitive market for natural gas. NGSA is dedicated to achieving a cleaner future through strong partnerships with renewables and supporting innovative technologies and market solutions that reduce emissions. For more information, please visit www.ngsa.org.

Markets Matter: *Representing America’s Major Producers and Suppliers of Natural Gas Since 1965*

-CLNG-

The Center for Liquefied Natural Gas (CLNG) advocates for public policies that advance the use of liquefied natural gas (LNG) in the United States, and its export internationally. A committee of the Natural Gas Supply Association (NGSA), CLNG represents the full LNG value chain, including large-scale LNG export facilities in the United States, shippers, and multinational developers, providing it with unique insight into the ways in which the vast potential of this abundant, clean and versatile fuel can be fully realized.
